Una collezione ispirata all'estetica della resina cemento industriale. I laboratori Piemme hanno lavorato per riprodurre in chiave ceramica il gradevole effetto estetico, con un movimento leggero delle tipiche striature direzionali, date dalla stesura manuale o meccanizzata della malta.

A collection inspired by the aesthetics of industrial concrete resin. The Piemme laboratories have worked to reproduce the pleasant aesthetic effect with a ceramic twist and a light movement of the typical directional streaks associated with the manual or mechanized laying of mortar.

Eine am Aussehen von industriellem Zementharz inspirierte Kollektion. Die Produktentwickler von Piemme haben intensiv daran gearbeitet, die attraktive Optik nachzuempfinden, die durch die leichte Bewegung der typischen, mit dem manuellen oder mechanischen Auftrag des Mörtels erzeugten, richtungsgebundenen Rillen entsteht.

Une collection inspirée du ciment-résine industriel. Les laboratoires Piemme se sont penchés sur la superbe esthétique de ce matériau pour la traduire en céramique en reproduisant le mouvement léger des stries qui se forment généralement lors de l'application manuelle ou mécanique du mortier.
